PROPERTY DESCRIPTION

Fabulous floorplan, great for entertaining!

Split entry with gracious formal living room, high ceiling and large windows to let in the morning sun. A limestone fireplace commands center stage.

On the other side is the formal dining room. Walnut hardwood flooring is found throughout the first floor, stairs, upper hallway and master bedroom, with slate tile in the entry and family room.

The kitchen boasts Canyon Creek cabinets, slab granite, Wolf oven and microwave and warming drawer, Sub Zero refrigerator. Be sure to check out the touch control faucet.

Open from the kitchen is the family room, with built-ins, second fireplace and French doors on either end, opening on one side to an interior courtyard, the other to the paved patio stepping out to pond and some mountain views. Very private!

Upstairs, the master suite features a private balcony overlooking the interior courtyard, a 3rd fireplace, luxury bath with oversized steam shower, jetted tub, heated floor and walk-in closet.

Down the gallery hallway which overlooks the living and dining rooms is the upstairs laundry (with another in the basement), and at the other end of the hall are 2 more bedrooms, sharing a bath.

The lower level contains a 4th bath, media area, non-conforming bedroom or office, mechanical and 2nd laundry area.

The whole house was redone in 2008. The drywall was replaced, extra insulation added, and all ductwork replaced.
